Public Education Strategy

Purpose of public education

Working in partnerships with families and community to nurture, develop and empower South Australian children and young people with the knowledge, skills and capabilities they need to become fulfilled individuals, active, compassionate citizens, and lifelong learners.

Self-regulated learning

In 2025 we will further implement the South Australian Strategy for Public Education.

With a focus on the Areas of Impact Wellbeing and Effective Learners, we will bring together the public education strategy and our improvement priorities.

We will amplify our work in developing self-regulated learners.

This will support learners to develop, review and re-set learning strategies and goals despite the inevitable obstacles and set backs.

Developing a focus on strategic awareness, metacognition and cognitive engagement to support all learners in being connected to their learning and knowing what to do when they don't know what to do.
