

Glen Osmond Primary School

Instrumental Music Policy

Instrumental music tuition complements the classroom music program by providing knowledge and skills in practical music making on an instrument or voice.

Instrumental and vocal tuition at GOPS will be provided by Instrumental Music Service, or by private music instructors where there is sufficient:

- school capacity in space, time or other resources
- appropriately qualified and certified instructors available
- community demand

Families will engage with Private Music Instructors directly to manage payment, missed / catch up lessons, timing of instruction and instrument loan or use.

All private Music lessons will be held after 12.20 to 3.10pm to reduce impact on classroom learning.

The GOPS Leadership team will oversee all Private Music Instructors through the management of:

- GOPS Private / External Provider application to provide service processes
 - o Application and approval to provide service
 - o Appropriate documentation / clearances
 - o Service agreement
 - o Record keeping
 - o Appropriate communication between school, provider and families
- Identification of teaching spaces that reflect appropriate supervision requirements according to the qualification level of the Private Music Instructor engaged
- Private Music Instructor recruitment in line with site capacity
